

### Turkish Series In Persian

Turkish Series In Persian

"Most people, though, saw the hand of the government The authorities here have fought what they call a "cultural invasion" from the West, starting with the introduction of videotaped Hollywood movies in the 1980s and, more recently, the Internet and dozens of satellite channels based abroad, broadcasting in Persian. Needless to say, none of these would appear on Iran's state television, whether as a matter of taste or politics.
